hey I wanna know why the manga starts from chapter 26??? I had find an website with the manga from chapter 1 to 15 :/

seriously where is chapters 9 - 25

Ohhhh... is there any special reason why chapters 9 to 25 are missing?

why is there no volume 2?

Why does it skip from chapter 8 to chapter 23 on the chapter list?

I can't found sakura trick volume 2
Can someone help?

Where is Volume 2?

I note there is a substantial gap in chapters. We're missing chapter 9 through chapter 25
Are those in the offing somewhere? Or are they lost forever? Inquiring minds wanna know

...WAIT, WHAT HAPPENED??

WHY DOES IT SKIP SO MANY CHAPTERS?

The anime episodes cover faithfully, almost word for word, everything from the start of the manga up to volume 3, chapter 8.

In an effort to follow the storyline rather than translating what was essentially already seen in the anime, we at Lazy Lily decided to skip volume 2 and half of volume 3 and jump forward to where the story picks up from the anime.

Watching the anime and starting the manga from chapter 26 (aka volume 3, chapter 9) will bring you up to date without having missed anything.

WILL YOU GO BACK AND RELEASE THE CHAPTERS YOU SKIPPED?

Once we're up to speed with the newest releases (that's volume 7 of the manga) that's the plan, yes, but we keep losing dedicated translators so, while we have all the intentions to do it (RAWs of the skipped chapters are 90% cleaned and ready to be worked on), whether we'll eventually manage to do it remains yet to be seen.
